

CAPITAL IDEAS FUND LP

INVESTMENT STRATEGY

The Fund invests long and short in a concentrated group of publicly listed securities. Through the application of our focused investment strategy, we search for companies that possess high levels of return on equity, reasonable valuations and positive share price momentum. Portfolio companies typically have a track record of achieving high returns on equity, and are capable of generating high returns on equity for many years without the addition of significant amounts of equity capital other than that which is being generated internally. These companies are run by strong management teams that have a significant ownership stake in the business. **DK**

PORTFOLIO MANAGERS

Jason Donville

Jason has had an illustrious career as an award-winning analyst in both Asia and Canada. Prior to founding DKAM, Mr. Donville was consistently ranked as one of the top financial services analysts in the country. In 2004 and 2005, Mr. Donville was ranked in all three financial services research categories (banks, insurance and diversified financial services) in the annual Brendan Woods surveys. Mr. Donville was also recognized as the Top Stock Picker in Diversified Financial Services in the 2004 and 2005 National Post/Starmine surveys, and ranked number 3 for forecast accuracy in 2004 in the same survey.

Jesse Gamble

Jesse has been working closely with Jason Donville to manage the DKAM Capital Ideas Fund since 2011. ¹ The S&P/TSX Composite Total Return Index ("the index") is similar to the DKAM Capital Ideas Fund LP ("the fund") in that both include publicly traded Canadian equities of various market capitalizations across several industries, and reflect both movements in the stock prices as well as reinvestment of dividend income. However, there are several differences between the fund and the index, as the fund can invest both long and short, can utilize leverage, can take concentrated positions in single equities, and may invest in companies that have smaller market capitalizations than those that are included in the index. In addition, the index does not include any fees or expenses whereas the fund data presented is net of all fees and expenses. The source of the index data is S&P/Capital IQ.
